I went to sleep at 330 and woke at 530. She is gone, gas her jacket on but car is in drive. I think someone came by and picked her up and they're discussing a plan at some local backwoods diner. I'm looking now and then heading home.

I thought about that too. I'm afraid she might be. I was worried when I didn't see her anywhere in the house, although I thought that may have been better. Thinking I might stumble upon her in garage or basement or something. If you know what I mean.

Not sure what you are trying to say. You are you lamenting me meeting with them without you? You seem almost in despair over the idea. If you want me to just cancel it I am glad to do so. My stuff won't take long to update and either they will have some items done or they won't remember them or they will give me excuses. In any event my stuff if you think it's critical for you to hear then it can wait for you to be there. But enjoy your night and we can chat on it a bit later. Enjoy your night and have a good time and make some memories. :)

I would like to meet post meeting as well I am selfish about that; so I am a bit torn on the idea; would you be upset if I asked her to come? Really let me know if you have strong feelings on it; I won't be upset if you want me to just let it go; the way you let me know is to say "just think on it." I will wait till before bed to ask her and then I'll ask her if she is up for it or not; it's a long ride. I really need some time with her and its a good spot to have her think again on college but again it's a hell of a long ride 3.5 hours from here or more if she is driving so I am a bit torn on it tonight on it all for a variety of reasons.

This is where He has to come in and move and carry us or not. It's in His hands and we are in His hands and that is very reassuring to me. We will just do what we can do and then we have to let go and let Him do it and faithful and trusting and loving in how we walk it out; we can't change what we can't change but we can change what we can and we should just do what we can to work thru each moment and relationship as best we can.

So really you just decide how all your stuff firs for tomorrow and then we can work around it. I can come over to Lansing and lock some admin out and eye the stuff you have and do my email out and then drift back this way. Or it can all wait till Tuesday. Or I can wait till you come over this way tomorrow to see just see what your looking at and chat then. It's honestly your call. I can't be sure but I think any of those scenarios can be doable and might work. But it's all dependent on your window and timing and what you have on your plate.

I am probably missing something but if the air just goes out and it won't hold air then you can't really drive it there. But maybe I am not understanding.

Good morning; I hope you slept well; hiding in my office again; lots happening in my mind overnight on all this; feel no need to respond immediately to it, I know it's early; a couple of developments - dan sent the texts and I asked him to do a summary of what surrounded his involvement; I blind copied you on that email back to him so we can eye the texts and decide which we want to release. Also I text tim On my meeting with him and I set up 8 am Monday morning. We need to decide on handing over a copy of the cartoon and also about Ann's tape as well. Finally overnight I thought about what they could have taped and how we are intertwined in our testimony on all of it and first we have to be in unison as best we can and second we might need to explore with counsel filing for an injunction on the takings to challenge the Sullivan case and see if the court is able to in some way stop the house expulsion efforts from using these tapes. Essentially challenging the legislatures authority to use this evidence in their actions against us.

Lord I just pray You would show yourself mighty and strong and inspire us to Your Greatness! Father right now just fill Cindy with all the love and joy and peace that You have and grant her Your voice for such a time as this. Let them see what a redeemed soul looks and sounds like and may Your word go out! God bless you Cindy and I am so sorry for all the trouble I have caused you and your family. No harm no foul; you have every right to take the steps that make sense to you for your family; you are free to resign or stay and fight; you do not need my blessing in anyway, but you have it for whatever path you decide to choose. I hope you are well and that your day and night are rest filled. God bless you.

I know it is a really dark spot for you as it is for me so don't feel any obligation to stay on for me; just make sure what you decide is what God has for you and I know you will. I understand what you are considering and why; and just know I will be praying for you and your discussions with your children and your decision; Tuesday will be hell for sure even if no one says a word it will be hell to walk down that isle; if you feel the Lord has you at tapping out then I understand; if you are still feel God has some reason to walk it out we can then discuss the rest later. I'll be praying for you and yours.

What we are dealing with - some of it is you and some me and some both of us - 30 media moments today to a wall of cameras and dealing with a world wide sex scandal, hundreds of calls for media, entertainment tonight, inside addition, dr Phil, good morning America, cnn, not to mention spouses, children, a censure hearing, an expulsion effort, a recall effort, a plethora of calls for resignation, an anonymous blackmailer, a new road tax, a state police investigation, an attorney general investigation, and a local paper editor that hates me, two challengers, Not to mention they are just inching to put me in prison. And that was just today. I need help on what can be done in this situation and what can't, because the other side has a plan and I don't know what it is or what hand they are holding, so can I be recalled and if so how, can I be censured, expelled, jailed, or disbarred if so how and how not.

Courser read "Rise and redesign Todd.. rise and redesign day." Courser commented that it was about referencing his family and health. He continued reading "Good morning, hope you found your soul - searching weekend peaceful." Courser advised that only one of his staffers knew that he has health issues. He stated that recently he has been going through testing but didn't say specifically what the health issues were. Courser advised that he brought each staffer in individually and have interviews with them. Courser advised that the one staffer had a lot of "stuff" on him that includes video, audio, etc. Courser advised that he believes he knows of five

Courser began reading more texts. "I'm letting everybody off the hook... on one condition only. You ressign Todd, Tuesday. Mention your health, your new found family bond. Do not mention Cindy at all. Call me karma. This is for the others too!" Courser advised me that this person is sending the same exact texts to his brother as well. Courser advised that he doesn't get group texts on his phone. Courser advised that his brother went back and forth with the texts and responded several times to this unknown person. Courser advised that he never responded to the texts and only received them.

Courser advised at this time he decided to send out an email as a "misdirection" and also known as a "false flag email". This email involved a lot of very "lewd conduct". Courser advised that he has already admitted to sending it and the public knows all about it. Courser sent it out and see where it came back. He had a conversation with one staffer and found out that he had audio recorded it. He advised that there were a lot of gaps and pauses in it. He advised the public is only getting a portion of what was actually said. Courser advised that he went back and forth with this staffer to try to see whether he was on the "same team or not". I asked if this was a face to face conversation and he advised that is was and took place at his office in Lapeer at 10pm on the 19th. Courser advised everything in the email that he had sent out previously that all of it was not recorded the conversation without his knowledge. Courser advised that what it sounded like on this audio tape was that he was trying to persuade the staffer to send out the email but when in fact Courser was trying to find out the staffer to admit that he is involved in the "blackmailing plot". The public doesn't know that. They believe its just a cover up. Courser advised that his family already knew so that it didn't make sense that he would do that.

Course advised that it was only by text message. He advised he was trying to decide who this person is and he suspected his staff. Two staffers were with him for a long time but he was wondering who it could have been in his staff. He advised he was changing his password, afraid that they had the information because his staffers have access to all the relevant information. Course advised that he is still giving me indication that he is doing these things. I asked him if he received any suspicious emails or anything to connect his staff and he advised "No".

Couser paused and said that he believes he told his wife around this time of year was thinking about talking to his state employer. Big changes next week kids as I change the political landscape. You both can prevent this really. You never asked how. I can show you whereabouts when not in session, meetings or together. Those whereabouts do not include seedy alleys in Lansing having sex with men Todd. Grow up. I sell non-fiction, you however spin fairy tales and fiction. That email can't find another inbox... Oh, change your passwords too. Dumb." Couser stopped and advised that this was significant because this unknown texter had known his information.

Courses him back on the 21st and said "I know that was you that sent that out". Courses believes that because the only him immediately advised May 20th. He advised he sent it out on May 20th. Courses advised that the texter texted him when the email was sent out and Courses advised it was sent out on May 19th. Then he changed his date discussing that someone was blackmailing me. Ben was the only one that knew I sent out the email. I asked Courses responded "I had conversations with him leading up to that night which aren't on the tape the email. Courses advised that he had any point that he had any conversation with Ben about sending did not send out the email". I asked him if at any point that he had any conversation with Ben about sending I inquired Courses about approaching Ben on sending out the "false flag email", and Courses advised that "he

Courses stated that he didn't look it up because that's the reason he is coming to the State Police. Courses advised that he found this around the time of August 7th, 2015. Courses advised that Jeff was a "phone guy". Courses advised that Jeff Phillips approached him on Facebook and found the name as noted above. Courses

Courses advised that another Hispanic male name was brought to his attention after speaking with a Jeff Phillips who is a Facebook friend. Courses advised that he is only a friend from the Kingstown or Caro area. He did a search and the number came back to this name. It is unknown where the search was completed. I asked Courser if it is a fair statement to agreee that he, while thinkking it was a poor decision to send out the email, sent out the email to attempt to cover up his affair while using Ben in the process. Courser responded, "Well..... there is multiple reasons for doing it. That would be a fair reason... but..." I also added other reasons confronting Courser with how he was feeling guilty about it, the fact that Cindy has reported it earlier, and how now she is having a press conference on this date. Courser only replied "I thought that the State Police were already looking into it and I went to the FBI." I advised him that he was the complainant. Courser then answered, "Cindy is the complainant too and they are asking her to resign as well". Courser then advised that he went to the FBI. Then Cindy went to the Capitol Police. Courser continued "They all told us we needed to go to the State Police". I asked him if there was a reason why he didn't come to the State Police in the first place, and Courser replied "No.. there is no reason."

I asked Coursier if he was the one to send the text messages. He laughed and replied "No". He advised that I could talk to his brother in regards to this.

1. Confirmed Courses again on the reason for sending out the email was to cover up the affair and down play what had taken place, and what his family already knows. Further that his family knew, so why did he feel the need to send out the email. Courses started to agree but then advised that it wouldn't work like that. He stated he would have to send it out to thousands of people and instead he only sent it to approximately 200 people. Courses said that he sent it out to try to see if he could locate the person who was blackmailing him and it worked because the unknown texter sent a text back to him about sending out the email. Courses still advised he didn't know who it was because the texter is unknown and only suspects its one of his staff.

Couser advised that Ben is the only person he has for any type of email or tech work. I told Couser that he, himself is capable of writing an email and sending it out. Couser agreed and said he was capable. I asked Couser why he felt the need to specifically meet Ben for that reason. He advised that he didn't need him other than for the fact that he thought he might be "the guy".

Courser advised that it wasn't a smart decision when I contacted him again referencing the email. Courser advised, "Right" when I told him that in sending the email, could it be a reason for a cover up over his affair. He further added again "it was a bad choice" - referring to sending out the email.

Couser asked why he wasted all this time to report the incident. Couser advised that he met with the Lappeer County Sheriff about tracking a number. I asked when he asked him, and Couser advised he checked in June. Couser then stated he was trying to work through it with his family in the background, attempting to prove that Ben was the one who was the suspect. Couser advised "I still can't prove that he was the one that did it, other than the fact that he has been trapping me". Couser advised that he did not report it to the sheriff in Lappeer. I asked him again why he hadn't reported it since May. Couser advised that he didn't have any of the details together.

me interrupted me and advised that „you guys are better at that type of stuff and Ben is a theend... I was hoping that him as the suspect was not the case”. Coursier stated that Ben advised „No” in helping him to send out the email at the same time Ben was tapping him, according to Coursier.

asked why he has not reported it since the month of May. Courser advised that there was nothing to report because nothing was released to the media until now. Courser advised that he was coming into the Post to report of being blackmailed and that he wanted to know whether we were going to investigate it or not. Courser stated "bring it". Courser asked for an investigation or he wanted to go to Lansing MSP for a report. I advised him continuously that the matter will be investigated. Courser became agitated at the end of the interview and advised that he did not want to turn over his cellphone. Courser mentioned that he was at the Apple Store prior to this interview repairing his cellphone because he was having trouble with his email. I requested that he provide me with a copy of the email in question, the name of the hispanic male assigned to the phone number in question, the name of the person who approached him at the event with the other name Renee Leech", and also provide his cellphone for the Computer Crime Unit. Courser advised that he did not send out the text messages to himself. Courser advised that he is happy to face a felony charge of a false police report.

It appears in the video that Todd has his cellphone in his lap and places the phone in his lap just prior to the bucket of ice water being dumped over his head. The cellphone is placed in his lap and the phone is clearly observed being covered in water. It is not known at this time at what date or time this took place.

Approximately two to three weeks ago, Allard was "let go" as a staffer. Three days prior to being let go, Allard met with Courses's current staffer, Ann Hill. Allard asked to speak with Hill outside of Courses's office. While outside of Courses's office, Allard advised Hill that the office was "bugged". Allard put pressure on Hill to quit her position as Courses's staffer and attempted to scare her with potential consequences if she did not.

Courses believes that the text messages contained specific and detailed information that only this former staffers, Graham and Josh Klein, would be in a position to know.

On August 7, 2015, the conversation between Courses and Graham discussing covering up the affair was released to the media. After the release, Courses received another text message advising Courses to "resign or Chad Livengood gets it all". Courses advised that Chad Livengood is a reporter.

Prior to receiving the aforementioned text and email from Molynn, Courses had advised his wife about this affair.

Within two minutes of receiving the aforementioned text message, Courses received an email from Michigan Information Research Services (MIRS), Reporter Kylie Molynn. Molynn indicated that he had a source tell him that Courses generated the email. At this time, Courses advised Molynn that Courses had no comment. Courses stated that Graham was the only individual who knew Courses generated the email.

The text also advised Courses that he is stupid and should change his email passwords. Courses sent the email to approximately 500-1000 people. Shortly after sending the email, Courses received another text message that stated the email was an insufficient attempt and "way over the top".

Within the FBI's statement, Courses advises of the following information:

On 08-19-15, I received a copy of the complaint that Todd Courses made to the FBI Flint Office on 08-11-15. Case #9B-DE-C6583961 Received at the FBI Flint Office on 8-11-15.
